

SAMUEL STEVENS

samuel.robert.stevens@gmail.com ◇ <https://samuelstevens.me>

RESEARCH INTERESTS

Natural language processing, out-of-distribution robustness and model interpretability.

EDUCATION

Ohio State University (3.93 GPA)

August 2017 - May 2021

Honors B.S. in Computer Science & Engineering, *Summa Cum Laude*

Columbus, OH

Honors Research Distinction in Computer Science & Engineering

German Minor

PUBLICATIONS

Understanding How BERT Learns to Identify Edits

Samuel Stevens and Yu Su

arXiv preprint (arXiv:2011.14039)

RESEARCH EXPERIENCE

Self-Attention Interpretability in Sequence Classification

October 2019 - April 2021

Undergraduate Honors Research Thesis

Columbus, OH

- Fine-tuned pre-trained language models on existing sequence classification task.
- Manually created adversarial examples to probe language models' understanding of the task.
- Qualitatively analyzed trends in the attention maps of BERT, SciBERT and RoBERTa to identify differences in interpretability.
- Identified a gap in existing literature (no large-scale quantitative measurement of BERT's interpretability on sequence level classification) and (currently) designing experiments leading to a baseline result.

SOFTWARE ENGINEERING EXPERIENCE

Microsoft

May 2020 - August 2020

Software Engineering Intern

Seattle, WA (Remote)

- Developed new Power BI feature to improve customers' ability to diagnose data-refresh problems.
- Authored feature spec to communicate intent and implementation details to feature stakeholders.
- Ramped up quickly in a 100 million-line C++ codebase to begin delivering value immediately.
- Demoed project to Power BI customers to demonstrate value and gain feedback.

TicketBay

January 2018 - August 2020

Co-Founder and Lead Developer

Columbus, OH

- Collaborated with OSU students to develop a mobile app for students to buy and sell football tickets.
- Facilitated the transfer of \$165K worth of tickets between more than 7K customers.
- Led system architecture decisions in order to balance ease of development and system performance.

GE Aviation

May 2018 - August 2018

Digital Technology Intern

Cincinnati, OH

- Built an end-to-end testing solution to automate QA testing of customer-facing web application.

- Applied agile methodology in a collaborative environment to meet specs, despite frequent changes
- Completed integration with existing deployment pipeline, leveraging existing infrastructure and leading to a net positive impact on product quality with no additional developer work.

The Ohio State University

Lead Developer

May 2018 - November 2019

Columbus, OH

- Supported a professor's research by developing an online app to distribute rich media.
- Implemented agile methodology to manage 2 student developers in multiple time zones.

GE Aviation

INTERalliance Intern

May 2017 - August 2017

Cincinnati, OH

- In-sourced customer-facing search, targeting \$300K in savings and 40K customers.
- Led MongoDB integration, giving customers access to previously unsearchable documents.

AWARDS

Hack OHI/O: Awarded Best UI/UX & People's Choice

2020

"A 48 hour hackathon that attracts over 800 participants annually for a full weekend of coding, building, learning, networking, and innovation"

- Developed a web-based, voice-powered, natural language code editor to convert natural, spoken language into Python code in real time.
- Fine-tuned pretrained transformer models and developed a custom parser to convert natural language to structured code.

Hack OHI/O: Awarded Best Hack

2019

- Developed an accessibility-focused text extraction app for visually impaired users.
- Used Tesseract OCR to extract text from images to provide content in a variety of accessible formats.

Brain Health Hack: Awarded Best Project at Large

2018

"Teams of future scientists, clinicians, engineers and coders compete to create tools that enable better care, more powerful research, or rather empower patients to live independent and productive lives"

- Developed a Android and iOS Parkinson's Disease tracking app to improve effectiveness of medication.
- Used device accelerometers to measure a user's tremors to improve effectiveness of medication.

Hack OHI/O: Awarded Best Software Hack

2017

- Developed an iOS social media trend aggregator in 24 hours to aggregate trending topics on Twitter and Instagram.

ADDITIONAL INFO

OSU Club Water Polo

August 2017 - May 2021

- Club Risk Manager

August 2020 - May 2021

Study abroad in Dresden, Germany

June 2019 - August 2019

- Awarded Huntington International Fellowship
